YES

## OFFER FOR COLLABORATION

IF YOU PROPOSE YOURSELF AS A PARTNER IN A CONSORTIUM, PLEASE DETAIL YOUR EXPERTISE

IFCT is the leading French group in clinical thoracic oncology research.

Created in 1999, IFCT is a multidisciplinary group of experts sponsoring clinical research to improve the survival and quality of life of patients with lung cancer. IFCT is involved in several types of clinical trials that evaluate new active treatments, different combinations of existing treatments or new approaches to surgery or radiation therapy

This group has already conducted 45 clinical trials and cohorts (14 Phase II/IIR, 23 Phase III, 8 cohorts). IFCT projects are coordinated by a Clinical Research Unit (22 full-time employees) accredited by the National Cancer Institute (INCa) and the National League Against Cancer.
