### Project proposal

Project title (draft): Offer of collaboration

Short description of the project in preparation and of the consortium; description of the areas of expertise needed (Max. 2000 words):

## OFFER FOR COLLABORATION

IF YOU PROPOSE YOURSELF AS A PARTNER IN A CONSORTIUM, PLEASE DETAIL YOUR EXPERTISE

Short description of the areas of interest and expertise (Max. 2000 words):

ANT Italy Foundation Onlus is active since 1978 in medical home assistance to cancer patients and support to their families for all needs (practical, social, psychological). Services and assistance are free; no costs are charged to the patients and the families. ANT has also a strong activity in the field of prevention; hundreds of prevention visits are organised in ANT's ambulatories every years for preventing breast, thyroid, melanoma, oral, gynaecological cancers.

The major expertise is in palliative care and prevention. Thousands of data are kept for statistical and research purposes, respecting ethics and privacy issues.

ANT could offer collaboration to all those organisations/research institutes willing to have a direct contact with cancer patients – also of rare cancers typologies - and those who wants to count on specialised medical staff skilled on palliative care, on the study of medical and psychological aspects of cancer and on therapies.

Ant spreads at Italian national level, with 120 delegations in 10 Italian regions. EU projects' activity has recently started.
