OFFER FOR COLLABORATION

IF YOU PROPOSE YOURSELF AS A PARTNER IN A CONSORTIUM, PLEASE DETAIL YOUR EXPERTISE

Short description of the areas of interest and expertise (Max. 2000 words):

We offer any type of molecular analysis and cell biology experiments for the mechanistic and kinetic studies, imaging and analysis in vitro and in vivo on immunodeficient mouse models upon various inoculation routes.

We have expertise including protocols to process and expand patient/derived xenografts.

We have some unique variants of chemoresistant cell lines (unpublished) of the testicular germ cell tumors (TGCT) to be further analysed and used for modelling human disease.
