

JOINT TRANSNATIONAL CALL 2015:

"Immunology and Immunotherapy of Cancer: Strengthening the Translational Aspects"

PARTNER REQUEST/COLLABORATION OFFER

If you would like to have your profile published on our "Search for a research partner" webpage, please fill out this form and send it to 

If you have any questions about this form, please do not hesitate to contact us at 

Note: Fields marked with a * are mandatory

General Information	
First name *	Antonio
Last name *	Pérez-Martínez
Position *	Physician
Telephone number	+34917277223
E-mail address*	aperezmartinez@salud.madrid.org
Website address:	http://www.idipaz.es/DefaultEN.aspx
Institution/Organisation *	La Paz University Hospital Biomedical Research Foundation (La Paz University Hospital – IdiPAZ)
Department	Pediatric Hemato-Oncology at La Paz University Hospital
Street *	Paseo de la Castellana 261
Postal Code * / City *	Madrid, 28046
Country *	Spain

*** I agree with the publication of my contact data and of this form on the TRANSCAN Website:**

YES

SEARCH FOR A COLLABORATOR

IF YOU ARE LOOKING FOR A PARTNER IN YOUR SUGGESTED PROPOSAL, PLEASE SPECIFY ALSO THE NEEDED EXPERTISE

Project proposal	
<p>PROJECT TITLE</p> <p>Ex-vivo expanded and activated Natural Killer cell infusions for sarcomas (SANKOMA).</p>	
<p>Provide a short project description about the project and the consortium (Max. 450 words)</p>	
<p>We offer our participation as partners in Consortia focused on Aim 3 Aim 3: Translational research for clinical application of cancer immunotherapy.</p> <p>From my institution at Hospital La Paz in Madrid, Spain, we would like to create a consortium (minimum 3-maximum 7 research groups from different countries in Europe with basic/pre-clinical team and clinical team) to apply to this call: "Immunology and immunotherapy of cancer: strengthening the translational aspects" from TRANSCAN-2 program.</p> <p>Our original idea is to develop a phase I/II multicenter clinical trial with Natural Killer cell therapy against sarcoma patients.</p>	

OFFER FOR COLLABORATION

IF YOU PROPOSE YOURSELF AS A PARTNER IN A CONSORTIUM, PLEASE DETAIL YOUR EXPERTISE

<p>Type of partner (Research institution, university, etc.)</p>	<p>University Hospital and Research Institution</p>
<p>Provide a short description about the expertise (Max. 200 words). La Paz University Hospital (HULP) is a public hospital centre of excellence in child and adults healthcare located in the north of the city of Madrid, Spain. Since its formation in 1964, the hospital has grown into a large hospital complex. For example we perform all type of solid trasplants and hematopoietic stem cell transplantation. In addition, HULP integrates also biomedical research through its IdiPAZ Institute for Health Research, which includes 48 research groups in 6 diferent Areas, including the Institute of Medical and Molecular Genetics (INGEMM) as part of IdiPAZ and the Autonomous University of Madrid (UAM), Spain. The Paediatric Hematology-Oncology Department of La Paz University Hospital, founded in 1965 along with the Children’s Hospital, is a national reference centre for diagnosis and treatment of all paediatric malignancies and for all modalities of Hematopoietic Stem Cell Transplantation. Since 2013, it is the first public national institution running on different non commercial immunotherapy clinical trials with Natural Killer cells against solid tumors, acute leukemia and myeloma multiple. We form a multidisciplinary team consist of experts from Immunology, Oncology, Haematology,</p>	

Paediatric and Researchers organizing by a Clinical Research Unit (UCICEC) and we are willing to participate to TRANSCAN consortium.
